OBJECTIVE

Recent BCA graduate (2025) with 1 year of hands-on experience in Full Stack Development, database management, and REST API development. Strong proficiency in SQL queries, CRUD operations, debugging, and IT service management. Skilled in collaborating with cross-functional teams in Agile environments and delivering client-focused solutions under tight deadlines. Seeking Analyst Trainee position at Cognizant to leverage technical expertise in Multicloud Services, Data Analytics, and Digital Workplace Services while contributing to continuous service improvement and innovation.

EDUCATION

- **M.Sc. Computer Applications**, Savitribai Phule Pune University – **Present**
- **BCA**, Savitribai Phule Pune University – **2025**
- **Higher Secondary Certificate (HSC) - 12th** Shri Sant Tukaram Junior College, Lohegaon, Pune | 2022 **Percentage: 67.70%**
- **Secondary School Certificate (SSC) - 10th** Shri Sant Tukaram Vidyalaya, Lohegaon, Pune | 2020 **Percentage: 86%**

SKILLS

TECHNICAL SKILLS :-

- **Databases & Query Languages:** MySQL, MongoDB, SQLite | SQL (SELECT, INSERT, UPDATE, DELETE, JOINS, WHERE, GROUP BY, Aggregate Functions) | CRUD Operations | Database Design & Optimization
- **Programming Languages:** Python, JavaScript (ES6+), Java, C++
- **Backend Development & APIs:** Node.js, Express.js, Django Framework, REST API Development & Integration, Nest.js | Postman API Testing Tools
- **Frontend Development:** React.js, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap | Responsive Design
- **Data Analysis & Visualization:** Chart.js, Power BI (Workshop Certified) | Data Aggregation & Reporting
- **Development Tools:** Git/GitHub, VS Code, Postman, Browser DevTools | Version Control
- **Methodologies & Practices:** Agile/Scrum, IT Service Management (ITSM) Basics, Debugging & Troubleshooting, Root Cause Analysis, Manual Testing
- **Deployment & Cloud:** Vercel, Render, MongoDB Atlas

SOFT SKILLS :-

- Problem-solving & Root Cause Analysis
- Strong Written & Verbal Communication
- Client-focused Approach
- Team Collaboration
- Time Management
- Quick Learner & Adaptable
- Critical Thinking & Attention to Detail

WORK EXPERIENCE

Full Stack Developer Internship – Goanny Technologies Pvt Ltd, Pune Jan 2025 –Sep 2025

- Built and maintained full-stack web applications with Next.js, React.js, Node.js, and REST APIs.
- Performed **CRUD operations**, complex **SQL queries**, and database optimization using **MySQL**
- Debugged and resolved production issues through **log analysis and root cause analysis**
- Collaborated with **QA teams** for testing APIs, frontend components, and database functionality
- Improved application performance by optimizing database queries and response time
- Participated in **Agile/Scrum** processes, sprint planning, reviews, and client demos
- Guided junior developers on debugging, code reviews, and coding standards
- Created and maintained **technical documentation** (APIs, database schemas)

Web Development Intern (Python Django Framework)

Elite Softwares Pvt Ltd, Pune |

Jun 2024 – Dec 2024

- Built responsive web applications using **Python, Django, REST APIs**
- Implemented **user authentication and data security** features
- Wrote and optimized **SQL queries** (JOINS, aggregates, subqueries) using **SQLite**
- Identified and fixed bugs related to **application logic, database, and API integration**
- Improved performance through **query optimization and indexing**
- Used **Git/GitHub** for version control and collaborated in code reviews
- Delivered modules on time while working with **designers, backend, and QA teams**
- Prepared technical documentation for modules and database schemas

PROJECTS

DailySpend+ – Expense Tracker Web App

Tech Stack: *React.js, Node.js, Express, MongoDB, JWT, Tailwind CSS, Chart.js, Vercel, Render*

GitHub Repo :- <https://github.com/TanujaKhandve/Dailyspendplusproject.git>

Live Demo:- <https://dailyspendplusproject-git-main-tanujakhandves-projects.vercel.app>

- Developed a secure **MERN stack** expense tracking application with **JWT-based authentication** and password encryption
- Built **RESTful APIs** with protected routes, middleware authentication, validation, and full **CRUD operations**
- Implemented expense management features including **category tagging, date filters, search, and notes**
- Used **MongoDB aggregation pipelines** for monthly totals and category-wise expense analysis
- Integrated **Chart.js** for interactive expense visualization and **jsPDF** for downloadable PDF reports
- Implemented user profile management and secure password updates using **bcrypt**
- Tested APIs using **Postman** and debugged frontend using browser DevTools
- Deployed application with secure environment variable configuration
- Followed **MVC architecture**, proper error handling, and maintained technical documentation

Online Examination Portal(Django Framework)

GitHub Repo:- <https://github.com/TanujaKhandve/online-examination-portal.git>

Tech Stack: Django, Python, HTML, CSS, SQLite

- Developed a full-stack **online examination system** with role-based access (Admin/Student)
- Implemented secure authentication using **Django built-in auth**, sessions, and form validation
- Built exam creation, question management, timer-based exams, and automated result evaluation
- Designed responsive UI using **HTML, CSS, Bootstrap**
- Developed admin dashboard for managing students, exams, questions, and results
- Used **Django ORM** for optimized database operations and data aggregation
- Generated performance reports including scores, averages, and pass/fail analysis
- Tested edge cases including timeouts, invalid inputs, and concurrent users
- Followed **Django MVT architecture** and documented project setup

COURSES & CERTIFICATIONS

- Web Development Internship – **Elite Softwares Pvt Ltd (Django)**
- Python Flask – Udemy
- Java Basics (Logic & Concepts) – Udemy
- Power BI Workshop – Office Master

- SQL Database Management – Self-learned (projects)

SUMMARY

Motivated and technically proficient BCA graduate (2025) with 1 year of practical, hands-on experience in Full Stack Development (MERN stack, Django framework, Next.js) and strong foundation in database operations, SQL query optimization, and REST API development. Demonstrated ability to debug complex production issues, perform systematic root cause analysis, and deliver high-quality solutions under pressure in real client-facing projects. Experience in both technical development and showcases strong communication skills, patience, and ability to simplify complex technical concepts for diverse audiences. Proven quick learner with demonstrated adaptability to new technologies, frameworks, and work environments. Comfortable working in collaborative Agile teams, handling client interactions, and managing multiple priorities simultaneously. Ready to contribute technical expertise to Cognizant's IT Service Management, Multicloud Services, and Data Analytics teams while continuously upskilling and embracing new challenges. Committed to maintaining high professional standards, delivering client-focused solutions, and contributing to organizational growth through innovation and continuous improvement
